

What You Need to Know About Overdrafts & Overdraft Fees

An overdraft occurs when you do not have enough money in your account to cover a transaction, but we pay it anyway. We can cover overdrafts in two ways:

1. We have standard overdraft practices that may come with your account.
2. We also offer overdraft protection plans, such as a link to another account, cash advance, or line of credit, which may be less expensive than our standard overdraft practices. To learn more, ask us about these plans.

This notice explains our standard overdraft practices.

What are the standard overdraft practices that may come with my account?

- We do authorize and pay overdrafts for the following types of transactions:
 - Checks and other transactions made using your checking account number
 - Automatic bill payments
- We do not authorize and pay overdrafts for the following types of transactions, unless you ask us to (see below):
 - Everyday debit card transactions
- We pay overdrafts at our discretion, which means we do not guarantee we will always authorize and pay any type of transaction.
- If we do not authorize and pay an overdraft, your transaction will be declined.
